# SPECIAL USE PERMIT PROCESS Film or Photography

To follow is a general overview of steps involved to procure a permit to conduct a film or photography session on Sandy Hook.

For all questions/information, please contact:

Permit Coordinator/Park Events Coordinator

#### **GENERAL INSTRUCTIONS**

- 1. A special use permit is required for all filming activity.
- 2. If a photography session includes models, sets, or props, or when the use requires management to prevent impairment or derogation to the resources or a significant disruption of normal visitor or Agency use, a permit is required.
- 3. A permit is required for commercial filming including but not limited to motion picture filming, video taping and sound recording.
- 4. A fee is charged mandated by P.L. 106-206 that allows the Secretaries of the Interior and Agriculture to establish a fee system for filming on lands under their jurisdiction. The amount is intended to generate a fair return to the government for the use of Federal property, for filming or photography. The fees set forth in this document are established as the minimum location fees to be charged and shall be subject to an annual review and adjustment to ensure that they represent fair market value.
- 5. An application for a permit follows and requires a \$100 administrative fee made payable to the National Park Service for processing. If time is critical, you may fax your application and follow with your check in the mail or bring it with you on the day of your shoot.
- 6. A special use permit can be issued as expeditiously as needed.
